To Whom It May Concern

When I found out  
Delphi was planning to drop my  
Health and Life Insurance. I  
Couldnt believe it. After 30 yrs  
of working for this Company  
They showed us we were no  
more than our clock number.  
Dedication has only proven  
one sided. Now they want to  
take my Severance Package too,  
why? I sign a Contract and it  
was promised to me. I had  
plan to pay off my House. If  
I had known from the start  
Delphi would treat me so bad  
at the end I would have planned  
differently. Some one. Please have  
a little Compassion. I object to  
my Severance being terminated and  
I Believe that Severance payments  
are Administrative Claims. I object to the  
June 16th Master Deposition agreement! Sincerely,
